BRIEF OVERVIEW OF AUSTIN FIRE DEPARTMENT

For the first several years after its founding, Austin had no fire department; fires were fought on an *ad hoc* basis by individual citizens. But after a particularly disastrous fire at John T. Miller's livery stable in 1858 (which resulted in about \$1,000 worth of property damage), the Austin Hook and Ladder Fire Company No. 1 was chartered that same year at the initiative of John Bremond, Sr., and formally organized the following year. The first volunteer fire chief was C. F. Millett in 1866, and an ordinance passed in 1874 officially established the city's Fire Department, including a chief, an assistant chief, a recorder, and commissioners. The company was joined by the Colorado Steam Fire Engine Company No. 2 in 1871, and the Washington Hose Company in 1874. Eventually, a total of nine companies would constitute the volunteer department. The Austin Hook and Ladder Company No. 1 remained as a voluntary entity until it was replaced by a fully paid core of firefighters in 1916 after a city-wide vote.

This new professional fire department began operations in June, 1916 with 27 men. Clarence Woodward was appointed Fire Chief and served for 10 years. By the end of 1917, there were 35 firefighters, five pieces of motor apparatus, one Chief's car, and three pieces of horse-drawn equipment. A hose man was paid \$70 per month, and the operating budget for the year was \$43,740. Over the next 20 years, several fire stations were built or remodeled to accommodate the growing city. Another addition to the department was the construction of a six-story training tower on West 1st Street in 1931, which was used to practice different drills and incendiary emergencies until it was closed in 1974.

In 1941, a retirement system was set up for firefighters, and in 1947, they joined the civil service, forming a union soon after as well. It was also during this time that a building inspection program began operations to improve fire prevention. The department hired its first black firefighters in 1952, one of whom, Willie Ray Davis, eventually retired as the first black captain of the Austin Fire Department. The first Hispanic firefighter, Joe Villareal, was hired in 1963, and the first female, Lucinda Hough, in 1976. Austin's City Council approved and adopted the "9-1-1" emergency number system two years later in 1978, as well as a plan to restore the old fire training tower, which they renamed the Buford Tower in honor of Captain James L. Buford, who died six years earlier in the line of duty. A dive rescue team was established in 1981 after the Memorial Day flood of that same year, but it was not centralized at Station 1 for another two years. 1984 saw the creation of a Hazardous Materials Response team after the passage of new federal regulations. The next year, the STAR Flight helicopter service was put into operation, which combined Austin's EMS with Travis County EMS and Brackenridge Hospital into an emergency care unit spanning 10 counties.

In the fall of 1997, all the fire stations in Austin were fitted with computers. The department now has 45 fire stations and responds to more than 85,000 calls annually, of which 70% are medical related. Currently, over 1,000 employees work in the department, with Joel Baker as the Fire Chief.

PERIODICALS

The Periodicals Collection includes newspapers, magazines, and newsletters published in or about Austin and Travis County. The collection is arranged alphabetically by title. Titles can be found by looking in the Periodical Index, located in the Reading Room. Date spans are listed in order to give the researcher an idea of what is available but this does not mean that the entire run of a periodical for that date span is necessarily available.

Within the collection are publications created by the Austin Fire Department and the Austin Association of Professional Fire Fighters.

The Austin History Center has on microfilm a complete run of the Austin American-Statesman (AAS) since its founding in 1871. Refer to the following guide for more information about the AAS and how to access it: [Austin American Statesman Resource Guide](#).

Title/Organization	Date Span
<i>Austin Fire Department Today</i> Austin (Tex.) Fire Department	Jan 1985 - July 1987
<i>On The Move</i> Austin (Tex.) Fire Department	Dec 1991 - Jan/Feb 2003
<i>Rackline, The</i> Austin (Tex.) Fire Department	Jan/Feb 1991 - May/Jun 1991

ADDITIONAL RESOURCES

The Austin Fire Department’s city website contains current information about the department, including an index of fire station addresses with photographs, programs and services, fire inspections, and external links to the department’s other social media channels. The website can be found through the City of Austin’s site at:

<http://www.austintexas.gov/department/fire>

The Austin Fire Department maintains its own website outside of the city’s main hub. Although mainly focused on recruitment, it also provides information such as fire station locations, cadet training, AFD news, and more. The website can be found at:

<https://joinafd.com/>

The Austin Fire Museum, located at 401 E. 5th Street, preserves the history of the Austin Fire Department, from its origins in the 1870s to the present day. There, visitors can view old uniforms, historical photographs, and other memorabilia from Austin’s firefighters. The museum’s website can be found at:

<http://www.austintexas.gov/department/austin-fire-museum>

The City of Austin has an interactive map that shows the locations of all its fire stations. The map can be found at:
